

Project Executable Files

Date	06 July 2026
Team ID	TMID-SL-2026-01
Project Name	SmartLender - Applicant Credibility Prediction for Loan Approval
Maximum Marks	3 Marks

This section requires submission of all executable and deployable files for the project.

Step 1: Submission Checklist

S.No	Item to Submit	Submitted
1	Complete source code (all files and folders)	Yes
2	README / Setup Guide	Yes
3	requirements.txt	Yes
4	Database schema / seed files	N/A (flat CSV dataset, no database)
5	Environment configuration file (.env.example or similar)	N/A (no secrets/API keys used)
6	Deployed application URL	Pending (IBM Cloud deployment planned)
7	APK / Executable binary	N/A (web application)
8	Dockerfile / Containerization config	No (planned next step)
9	Test files and test results	Yes (Training/model_comparison.csv; Flask route s
10	Demo video or walkthrough	Pending

Step 2: File / Folder Structure

SmartLender/

Dataset/loan_prediction.csv

Training/train_model.py, build_notebook.py, Loan Prediction using ML.ipynb, model_comparison.csv

Flask/app.py, rdf.pkl, scale1.pkl, templates/(home.html, predict.html, submit.html), static/style.css

requirements.txt, README.md, .gitignore

1. Brainstorming & Ideation/ ... 8.Project Demonstration/ (this documentation set)

Step 3: Deployment / Access Details

Field	Details
Hosted / Deployed URL	Not yet deployed publicly — runs locally via python app.py
Login Credentials (Demo)	None required — no authentication layer implemented yet
Platform / Hosting Provider	IBM Cloud (planned)
Repository Link	<a href="https://github.com/<your-username>/<your-repo-name>">https://github.com/<your-username>/<your-repo-name>
Demo Video Link	To be added

Step 4: Run Instructions

1. pip install -r requirements.txt
2. cd Training && python train_model.py (writes Flask/rdf.pkl and Flask/scale1.pkl)
3. cd ../Flask && python app.py
4. Open the local URL shown in the terminal, click Check eligibility, submit an applicant's details.

Step 5: Known Issues / Limitations

S.No	Known Issue / Limitation	Workaround / Status
1	No cloud deployment yet	Planned — IBM Cloud hosting in the roadmap
2	No authentication for credit officers vs. applicants	Planned future enhancement
3	Model trained on a historical, region-agnostic dataset	Retrain on institution-specific data before production use
