

Demonstration of Proposed Features

Date	06 July 2026
Team ID	TMID-SL-2026-01
Project Name	SmartLender - Applicant Credibility Prediction for Loan Approval
Maximum Marks	5 Marks

Checklist of the features demonstrated during the final project review.

S.No	Feature	Demonstrated	Notes
1	Home page walkthrough	Yes	Shows the project pitch, accuracy stats, and pipeline overview
2	Applicant form submission	Yes	All 11 fields entered and submitted for a sample applicant
3	Approved prediction example	Yes	Low-risk applicant (good credit history, stable income) → Approved with confidence score
4	Rejected prediction example	Yes	High-risk applicant (no credit history, irregular income) → Rejected with confidence score
5	Model comparison results	Yes	Training/model_comparison.csv reviewed to justify choosing XGBoost
6	Retraining the model	Yes	python train_model.py re-run live to regenerate rdf.pkl / scale1.pkl
7	Performance benchmark	Yes	100-request local benchmark shown (avg 2.79 ms, 0 errors)
8	Cloud deployment	No	Planned for a future iteration; currently runs locally
